ALLERGENS

CONTAINS: MILK, WHEAT
MAY CONTAIN EGGS AND SOY

DERIVED FROM BIOENGINEERING

TIPS & HANDLING

When product is delivered inspect case for visible damage and ensure product remains frozen. Gently handle cases to ensure there is no breakage. Mark each case with the date received and immediately place in the freezer at 0°F or below. Store frozen at 0°F to -10°F Store cases upright, stacked no more than 2 high to ensure proper air-flow in the freezer so the product remains frozen. To prevent damage, do not store on side or upside down. When ready to use, remove desired number of units from case and then reseal case and return to freezer. Freezer to oven: Add sauce, cheese and toppings. Thawed: Cover and thaw (up to 2 hours at room temperature 75°F). Add sauce, cheese and toppings. Bake until cheese melts and crust turns golden brown. Convection oven: 375°F for 9-11 minutes. Conveyor oven: 500-550°F for 4.5-6.5 minutes. Remove pizza from oven. Allow to set for one minute. Serve while hot.
